Enthusiastic Information Technology student based in Mumbai, currently pursuing a Bachelor's degree at Thadomal Shahani Engineering College. I am eager to apply my academic knowledge and passion for learning in a challenging internship role.

EDUCATION

Thadomal Shahani Engineering College   Bandra, Mumbai
Bachelor of Engineering in Information Technology(avg CGPA - 8.57)   *2021-2025*

EXPERIENCE

Talent Corner   February 2024 - April 2024
Web Developer Intern   *ongoing*
- Leading the development of an **automation app** that enhances communication among Business Development, Team Leaders, and franchise personnel, while optimizing workflow through **real-time tracking of franchise work statuses and seamless integration of communication channels.**

PROJECTS

Task Manager *(Internship project)* | *Nextjs, MongoDB*   February 2024
- Live - Task Manager   Source Code- Github
- The Task Manager website used by **250+ employees** at Talent Corner boasts an impressive optimization, achieving up to **98 percent performance** according to Lighthouse metrics.
- **Automated email alerts**, implemented using Mailtrap and cron jobs, significantly enhance company efficiency by ensuring timely and reliable communication, leading to a **40 percent reduction in response time and a 20 percent increase in task completion rates.**

Real-Estate | *React, Nodejs, Expressjs and MongoDB*   November 2023
- Live - Real Estate   Source Code- Github
- Seamlessly integrated **MongoDB, Express.js, React, and Node.js** to create a feature-rich platform for **efficient real estate management.**
- Facilitated robust **JWT authentication**, bolstering the platform's security, and strengthened **user credential security** by implementing bcrypt to hash passwords, mitigating potential risks and ensuring compliance with industry standards.

CareerExpo | *React, Nodejs, Expressjs and MongoDB*   August 2023
- Live - CareerExpo   Source Code- Github
- Developed a comprehensive **full-stack MERN application for career assessment**, incorporating features such as **tests, interactive dashboards, informative articles, and valuable resources**.
- The platform enables users to assess their career skills, track progress, and access personalized content to aid in professional development   .

SKILLS

Frontend: HTML, CSS, Javascript, React, Nextjs, TailwindCSS, Multiple Js Libraries
Backend: Nodejs, Expressjs, MongoDB, Mongoose, prisma, MySql, Docker
Developer Tools/Technologies: Git, Github, VS Code, Postman
Relevant Coursework: OOPS, DSA, DBMS, Computer Networking, OS
Languages: Javascript, C++, Python

ADDITIONAL ACTIVITIES

Competitive Programming
Active participation in 20+ LeetCode, CodeChef, and CodingNinjas contests and resolving 100+ diverse problems, demonstrating consistent engagement and competitive excellence.
